Many sightings report the UFOs changing shape and size; emitting beams of light over nuclear bases; illuminating roadways and entire towns with a powerful white light; and having the ability to be in one place only to reappear in another in an instant. Even more shocking is the reason behind the abductions and why the Aliens are here on Earth. World governments and military forces know the aliens are here. Explore this phenomenon that is destined to impact our society, our world structure, and our very being in this compelling speculative documentary. WE ARE NOT ALONE
