The Legendary Shoji Anime Series Comes to Blu-ray! "Never lose that strength or nobility, even when you grow up." However, her strong sense of chivalry soon places her at odds with the school's student council and thrusts her into a series of mysterious and dangerous duels against its members. BEAST OF YUCCA FLATS / BEAST FROM HAUNTED CAVE DVD DOUBLE FEATURE

Street Date: 10/3/2017
SRP: \$14.99
Cost:

Synopsis:

Presenting a super Sci-Fi HorrorRama Double Feature: Beast of Yucca Flats and Beast from Haunted Cave!

- Thrill as prominent Russian rocket scientist, Tor Johnson (yes, THAT Tor Johnson), barely escapes a band of blood-thirsty spies, but in eluding his captors, Tor is exposed to a deadly atomic blast that turns him into a Monster that rivals his greatest role in PLAN 9 FROM OUTER SPACE. Filmed without sound, BEAST OF YUCCA FLATS (1961) makes the most of what little it does have. Directed by actor Coleman Francis, who would be murdered shortly afterwards, it also features Conrad Brooks (BRIDE OF THE MONSTER) and Anthony Cardoza (NIGHT OF THE GHOULS, BIGFOOT). To keep things interesting the producers even inserted a scene featuring a nude girl into the beginning of the show! Seen here for the first time in an enhanced widescreen 35mm progressive scan presentation.
- BEAST FROM HAUNTED CAVE (1959, directed by Monte Hellman), along with SKI TROOP ATTACK, completed the pair of films, produced by Roger Corman in Deadwood, South Dakota. Starring Michael Forest (ATLAS, VIKING WOMEN VS THE SEA SERPENT) and Frank Wolff (THE WASP WOMAN), the story tells a genuinely scary tale of a hideous blood-sucking thing from a lonely cave that terrorizes a group of thieves as they attempt to escape with their ill-gotten loot. Presented in an enhanced widescreen progressive scan transfer of the original Filmgroup theatrical version.

Directors: Coleman Francis, Monte Hellman. Starring Tor Johnson, Michael Forest.
Special Features: Wide Screen Progressive Scan film transfers; Commentary Track with star Michael Forest; Original Trailers; Additional TV Scenes for Beast from Haunted Cave.

SRP: \$19.99
Cost:

Synopsis:

From the moment we are born, we are subjected to a bewildering array of religions belief systems competing for our soul. From the often threatening and dark, to the spiritual and light, from the controlling to the freedom loving...there is a religion for everyone. And yet, so many still feel they are missing something. There remains a void, an empty space within us that no text written by man can fill. And so, after millennia we still ask the same questions about the existence of God and the meaning of our lives. But now we have a new science, a new understanding of our universe and it has opened up before us new possibilities and answers. Quantum physics explains much more than actions of sub-atomic particles, it reveals truths about our lives and ourselves; it fills the void that so many of us need to fill. Explore the cosmic nature of the quantum world and the role of our soul within it in this fascinating speculative documentary film.
